

Uniform description and access to Knowledge Organization Systems with BARTOC and JSKOS

Andreas Ledl, Jakob Voß, Uma Balakrishnan

TOTh 2016 Conference, Chambéry, 2016-06-09

JSKOS Knowledge Organization Systems format

Project coli-conc

Aim

Semi-automatic creation of mappings between library knowledge organisation systems

Classification systems in German speaking regions	
Universal Classification Systems	No. of classes
UDC (Universal Decimal Classification)	ca. 65.000 classes (English version)
DDC (Dewey Decimal Classification)	over 44.000 classes with 10 main classes
RVK (Regensburg Classification)	850.000 classes with 33 main classes
BC (Basic Classification)	2100 classes with 89 main classes
LCC (Library of Congress Classification)	21 main classes
Subject classification	No. of classes
DDC-Sachgruppen der DNB	10 main classes with 94 subclasses
MSC (Mathematics Subject Classification)	87 main classes
PACS (Physics and Astronomy Classification Scheme)	10 main classes
FKDigBib (Subject classification for digital library)	10 main classes
KfM (Classification for music library)	ca. 800 classes
Subject Classification at the Universities	No. of classes
TUM-classification (Science and technology classification of the TU Muncic)	52 classes each with 999 notations
Subject classification of the University library Duesseldorf	45 classes
Bremer classification of the State and University library Bremen	ca. 57 main classes
GOK (Goettingen Online Classification)	ca. 33 main classes
Standard-Thesaurus Wirtschaft von der ZWB	6.000 Terms and notations
Subject classification University library Trier	36 main classes
Technical University Dortmund	28 main classes
University library Paderborn	26 main classes
University library Marburg	35 main classes
University library Bonn	24 main classes
University library Heidelberg	22 main classes
Subject classification and nomenclature of individual languages	23 main classes
Library of the Institute of General Linguistics at the Uni Münster	
Subject Classification at the public libraries	No. of classes
SEB (Scheme for protestant libraries)	
SKB-E (Scheme for catholic public libraries)	
KfKJ (Scheme for children and youth libraries)	Less than 1.000 classes
ASB (General classification for public libraries)	ca. 2.200 classes with 23 main classes
ÖSÖB (Austrian classification for public libraries)	
SfB (Classification for libraries)	ca 14.400 classes with 30 main classes
KAB (Classification for general libraries)	ca. 2.700 classes
SSD (Classification of the city library Duisburg)	
ESSB (Single classification for South Tyrolean)	16 main classes

JSKOS data format

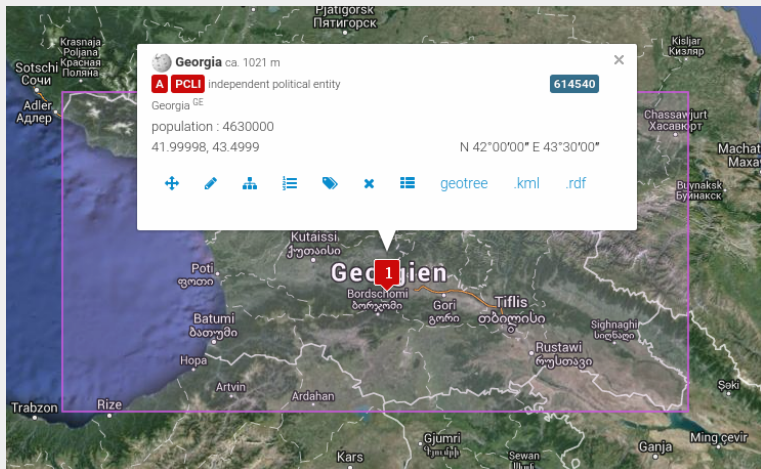

Requirement: uniform access to KOS data

- ▶ based on RDF (SKOS & Dublin Core)
... but more restrictive (unification)
- ▶ based on JSON-LD
... extended by language ranges and closed world statements

main goal: **easy use of KOS data in web applications**

<https://gbv.github.io/jskos/>

Concept example: GeoNames

<http://sws.geonames.org/614540/>

JSKOS concept example from GeoNames (abbreviated)

```
{  
  "uri": "http://sws.geonames.org/614540/",  
  "prefLabel": {  
    "en": "Georgia",  
    "fr": "Géorgie",  
    "de": "Georgien",  
    "-": "..."  
  },  
  "broader": [  
    { "uri": "http://sws.geonames.org/6255147/" }  
  ],  
  "inScheme": [  
    { "uri": "http://bartoc.org/en/node/15" }  
  ],  
  ...  
}
```

BARTOC in JSKOS

- ▶ KOS can also be expressed in JSKOS
- ▶ Mapping of BARTOC fields to JSKOS
- ▶ BARTOC JSKOS export available:

Multilingual Thesaurus of the European Union

[View](#)[Voting results](#)

Abstract:

"EuroVoc is a multilingual thesaurus which was originally built up specifically for processing the documentary information of the EU institutions.

It is a multi-disciplinary thesaurus covering fields which are sufficiently wide-ranging to encompass both Community and national points of view, with a certain emphasis on parliamentary activities. EuroVoc is a controlled set of vocabulary which can be used outside the EU institutions, particularly by parliaments.

The aim of the thesaurus is to provide the information management and dissemination services with a coherent indexing tool for the effective management of their documentary resources and to enable users to carry out documentary searches using controlled vocabulary.

The EuroVoc ontology is an extension of SKOS (Simple Knowledge Organization System) - W3C recommendation, including appendix B, SKOS eXtension for Labels (SKOS-XL)."

Alternative Title: EuroVoc
